

QA SERVICES

ACCELERATE YOUR JOURNEY TO QUALITY

Take your quality assurance (QA) strategies to the fast lane by collaborating with a team of QA experts to help launch your apps faster and ensure quality, precision, and performance throughout the development lifecycle.

Stratpoint QA professionals will keep you on track, while you focus on your core business.

QA CONDITIONING Training

Start your QA Journey by building and upskilling your QA team. Equip them with essential skills and knowledge to excel in QA practices and elevate software quality. Stratpoint QA professionals will conduct comprehensive training programs and enhance your team's proficiency in various testing methodologies, tools, and best practices.

Service Inclusions:

- Tailored-fit to technology and business needs
- Comprehensive training programs
- Customized training materials
- Increased skills, performance, and engagement
- Skills development workshops and exercises
- Assessment reports and progress tracking

QA COACHING Consulting

QA Coaching is for teams that recognize gaps at any point in their QA journey and need help to bridge them fast. Whether you need documentation, assessment, roadmap, or a full QA service, Stratpoint QA professionals will enable you to deliver quality products, minimize defects, and elevate user satisfaction.

Service Inclusions:

- Rapid gap identification and remediation
- Relevant QA services
- Continuous improvement
- Identification of metrics
- Tailor-fit QA Playbook

QA PITSTOP Managed QA Service

Scale your team up or down based on demand. Onboard a dedicated Stratpoint QA team to oversee and manage your QA process from end to end, ensuring that your software meets the highest quality standards throughout the development lifecycle.

Service Inclusions:

- End-to-end QA process management
- Interactive QA dashboard
- Comprehensive QA process documentation
- KPI-driven service, quality, and value
- QA process reviews and recommendations

QA QUICK FIX Testing as a Service

Test, identify, and resolve issues to elevate software quality fast. A team of experienced and highly-skilled QA professionals with a comprehensive testing portfolio provides tailored strategies and approaches to address project needs. Leverage innovative testing tools and proven frameworks to achieve the best testing outcomes.

Service Inclusions:

- Comprehensive test reports
- Battle-tested tools and frameworks
- Defect management
- Actionable recommendations and remediation

Our portfolio of testing services:

Performance | Test Automation | Web and Mobile | API | Big Data Validation | UI/UX | Compatibility | Artificial Intelligence (AI) | User Acceptance Testing (UAT) | Testing in Production

QA CREW Staff Augmentation

Onboard skilled and experienced QA professionals in your team without worrying about recruitment, training, or management. Stratpoint QA professionals will enhance your resource capabilities so you can meet project timelines, testing demands, and ensure the success of your products.

Service Inclusions:

- Highly skilled and experienced QA professionals
- Seamless integration and immediate impact
- Comprehensive test plan and test cases
- Quality assurance reports
