Working with Stratpoint

Pioneer innovation
Be the first adopter of new technologies. Delivering great products and services requires continuous research and development and special skills. Augment your team by tapping into our highly-skilled pool of AI/ML engineers and data scientists to do the prototyping experiments so you can focus on what you do best. Keep your team lean, while we develop the mean machine that gets you ahead of the pack.

Work with technophiles
Have complex problems that need creative solutions? Our team of AI engineers and data scientists is always eager to find new ways of doing things using the latest technologies.

Full-service enterprise IT
Bring faster, better apps and experiences to market before your competitors do. Our 20+ years of proven track record across agile software development, cloud, data, and quality assurance services, combined with AI capabilities, bring you custom end-to-end solutions to achieve real business goals.
